# PUMPER TANKERS

*Designed for multi-purpose...*

Danko is a family owned business with family values. We treat every customer with respect and dignity. Danko customers are part of the Danko family.

Danko has demonstrated the ability to fulfill the needs of our customers with superior craftsmanship utilizing functional, common sense designs and innovative construction methods.

Danko pumper-tankers are designed with the user in mind to get the job done safely and efficiently.

Danko pumper tankers are offered in both wet-side and dryside applications. Ground ladders are optional. High side compartments available.

Danko utilizes a large array of chassis and vendor components to meet our customer's needs.
